## CHARTER OF SERVICES

D.M. 19/5/1995 N.65

## PREMISE

The Service Charter aims to represent all the services provided and the commitments made to users by the CAF Clinic, and responds in particular to the need to improve the relationship between the client and the organization through transparency.

The elements contained in the same content are oriented towards the citizen-user benefiting from specialist outpatient services, and in this sense, the "service charter" represents the commitment of the health care unit to respect pre-established standards of organization and quality.

The service charter is to be understood as a dynamic synthesis of a process in progress that perceives the organization transforming itself according to the needs of the client with operators' collaboration. In fact, it contains information related only to the clinic in question because it wants to be an agile tool for consultation with respect to the organization and the commitments made towards users.

This service card has been created according to the Ministry of Health's guidelines on the simplicity of access routes, on clinical information, on the orientation of users and their reception, but also considers cultural contributions made by the Management, from the staff and also from some users particularly attentive to the problems contained in it.

The card that was outlined by the CAF Clinic has tried to consider all these factors that determine the quality of the service offered:

- For the aspects related to timing, elements related to "timeliness" (waiting times to access the services) and to "accessibility" (days and opening time) of the services, to the "standardization" (expected time for the performance)
- For the aspects linked to the simplicity of the routes, elements related to "comfort" (possibility of telephone booking for visits) and "Ease" (easy access to the structure and availability of internal staff) have been identified.
- The satisfaction of users, who have used the services, is verified by filling in a questionnaire available at the facility. The collected elements are evaluated by the CAF clinic in order to make service improvements.
- Regarding "personalization", privacy elements have been defined as elements that protect the confidentiality of the interviews between doctor and patient or relative, and the personalization of relationships with medical operators, physiotherapists, nurses and secretaryship personnel.

## INSPIRED PRINCIPLES

The basic inspiring principles, of which the CAF Clinic is committed to observance, can be summarized as follows:

- **EQUALITY:** equal opportunities for all citizens in accessing the service;
- **EQUITY AND IMPARTIALITY:** equal treatment with respect to the same diagnostic and therapeutic needs on the users' side, equal right to the performance and quality of these ones;
- **CONTINUITY:** stability and regularity of the functioning of the CAF Poliambulatorio services;

**POLIAMBULATORIO CERTIFICATO PER IL SISTEMA DI GESTIONE PER LA QUALITÀ**  
UNI EN ISO 9001:2015  
Certificato n°5657/01/S

- EFFICIENCY AND EFFECTIVENESS: guarantee of professional skills and technologies suitable to ensure the correspondence of the services provided to users' need, while achieving an optimal relationship between the results assured and the resources used by the CAF Clinic to obtain them; technical effectiveness through the development of research and organizational innovation, organizational and production effectiveness through the activation of management paths and procedures able to guarantee the optimal use of financial and human resources;
- RIGHT TO INFORMATION: specialists' rigorous implementation of the provisions of the Medical Deontological Code regarding information to the client on therapies and prescriptions, on the possible risks and side effects and on results;
- RESPECT FOR THE PERSON: the staff of the CAF Poliambulatorio is committed to adopting behaviors that do not compromise in any way the respect for customers or that are harmful to their dignity;
- AVAILABILITY, COURTESY, CORRECTNESS, HUMANIZATION: the relationship with users is also affected by the climate of serenity and trust that allows to rely on care with tranquility. In fact, CAF Polyclinic, requires to each operator, besides the specific technical competence, also courtesy and availability;
- SAFETY: the CAF Clinic pays the utmost attention to customer safety, it is a company commitment to ensure clinical risk management to reduce the probability of adverse events. To avoid the risk of transmission of infections between the operator and customer and between customers, appointments are taken exclusively by booking, and there are appropriate disposable devices available to the whole personnel, to be used whenever possible, and appropriate procedures for sanitation and disinfection;
- CUSTOMER SATISFACTION, OBSERVATION AND COMPLAINTS: attention to the results according to the needs expressed: each user has the opportunity to present observations, suggestions and complaints, through the personnel available in the center or by using the appropriate written forms. The Management undertakes to examine all the information reported and in cases where it is necessary to respond;
- TRANSPARENCY and quality assurance in the methods of providing services in availability and comparison with similar structures, in the implementation of the objectives that the structure intends to provide, in their implementation and in the dissemination of the results obtained in terms of production efficiency assessment.

#### GUIDE ELEMENTS ARE AND SHOULD BE:

- training of operators as a strategic investment to improve technical and management aspects.
- Group work to aggregate and improve company strategies
- Activation of reward systems also for responsibilities.
- Attention to customers' suggestions regarding some company choices related to front desk, expectations and urgencies.

#### HISTORY AND EXPERIENCE OF THE COMPANY

The CAF s.r.l. it was established by notary deed dated 12 November 1981 under the name "C.A.F. - Outpatient Center of Physiotherapy of Dr. Giuliano Barbolini & C. - s.n.c. "having as its object the management of a clinic of diagnostic radiology and of physical therapy and every private auxiliary health service similar or connected to the previous ones.

Over the years the company has been transformed into a limited liability company under the name "C.A.F. - Outpatient Center of Physiotherapy - s.r.l. "(15.6.1982) and changed the location of his business (again 1982) in the current location of via Sabbatini, 17 in Modena.

C.A.F. has established itself in its first years of activity in the field of specialist polyclinic and has maintained solid relationships with local health units in Modena and affiliated nursing homes (sharing with the latter several specialists of different branches of the clinic).

The good performance of the activity leads to the purchase of a local site in neighboring areas where a specialized private clinic is created (1989) while the affiliated activities of Physical-kinesthetic therapy and orthopedics are increased at the site.

After the change in the company structure in 1993, following which the company sold the property, our clinic has undergone a period of resettlement due to the introduction of new operating procedures and the adaptation to the continuous changes in the methods of providing the care provided by the local health unit and the financial laws that have followed in recent years.

Currently our company has decided to redevelop its business by modernizing the premises by equipping them with a gym for individual motor rehabilitation, acquiring specific equipment in the rehabilitation field and employing more qualified personnel (rehabilitation therapists). This decision was taken in consideration of the drastic decline in primary physical therapy and rehabilitation following the measures to rationalize the spending adopted by the Emilia Romagna region - health department and the company U.S.L. of Modena.

It was also decided in 1998 to play competitively thanks to reconversion, and after a contract stipulated with the local company USL, the specialist clinic was relaunched with the acquisition of equipment (echograph - eco-color-doppler, - diathermocoagulator, equipment for cryotherapy etc ...). To carry out activities both privately and in "service" with the aforementioned company usl. C.A.F. has taken steps to make the premises for the request for a definitive health authorization to the municipality of Modena, the prevention department.

On 13/7/2009 CAF, with PG 2009 149099 of 02/07/2009 of the social policies of the Emilia Romagna Region, receiving, to complete the path taken in June 2007 to request institutional accreditation, the Director of the General Director of Health and Policies Social n. 5917 of 06/26/2009 "Institutional accreditation of the CAF private clinic in Modena" which certifies obtaining the definitive accreditation. In 20112 an application for renewal of accreditation was made and accreditation was obtained with the National Health Service until 31/07/2018. On 30/01/2018 C.A.F. has submitted the renewal application as required by current legislation.

The management of C.A.F. always attentive to users' requests, intends to make clinical performance data available to users, publishing the user satisfaction data every six months and the data on the clinical efficacy of physiotherapy.

Activities and services offered

CAF S.R.L. delivers the following services:

**INSTRUMENT PHYSIOTHERAPY:**

- magnet
- YAG laser therapy
- High Power laser therapy
- Super High Power Laser Therapy
- CO2 laser therapy
- HENEIR laser therapy
- Short wave diathermy: radar therapy
- Ad short wave diathermy: marconi-therapy
- PHOTOTHERAPY-BIOBTRON
- electrotherapy
- electrostimulations
- ultrasound
- iontophoresis

**POLIAMBULATORIO CERTIFICATO PER IL SISTEMA DI GESTIONE PER LA QUALITÀ**  
UNI EN ISO 9001:2015  
Certificato n°5657/01/S

- idrogalvanotherapy
- Dia-diadynamic currents
- tens
- paraffin
- pressure therapy
- infrared radiation
- ultraviolet light therapy
- Sch skeletal traction
- Tecarterapia (utlrasuoni)

#### MANUAL PHYSIOTHERAPY

- Cyriax
- district massage therapy
- connective tissue massage
- massage therapy for lymphatic drainage
- separation massage
- myofascial massage
- pompage
- taping

#### REHABILITATION

- individual motile motor re-education
- serious motor motory rehabilitation
- Per perineal re-education
- group motor re-education
- physiotherapy
- functional re-education
- corrective gymnastics
- kabat
- Bobath

#### MANU MEDICA TREATMENTS

- vertebral manipulations - column mobilization
- infiltration
- cryotherapy
- diathermocoagulation
- sclerotherapy
- mesotherapy
- allergy tests
- acupuncture
- ear washes

The Quality Requirements of the services provided are defined as well as in the NATIONAL NOMENCLATER, IN CONTRACTS STIPULATED WITH THE LOCAL HEALTH COMPANY AND IN THE PROTOCOLS A.U.S.L. in the documents

- PROTOCOL OF THERAPIES (D.09.01)
- REHABILITATION PROTOCOL (D.09.05)
- REHABILITATION PROTOCOL 1 (D.09.06)
- PROTOCOL OF THE DIAGNOSTICS (D.09.02)
- PRODUCTS CATALOG

IN D.09.01 all the application standards of physical therapies are collected that can be identified with:

- the maximum and minimum power supply current (galvanic, faradic, exponential, etc.)
- the intensity of heat (for thermotherapies)
- the maximum duration of the therapies
- contraindications

In D.09.05 and D.09.06 are the rehabilitation application standards; any changes to the standards of application are made only in the presence of a specialist or medical prescription that specifies it.

In D.09.02 the standards for the application of instrumental and specialized diagnostics are collected. The aforementioned documents are available to medical and paramedical staff whenever there is a need to consult them.

THE CATALOG OF PRODUCTS CONTAINS QUALITY REQUIREMENTS AND INDICATORS AND STANDARDS OF MACRO PRODUCTS REHABILITATION AND PHYSICAL THERAPY, SPECIALIST DIAGNOSTICS, INSTRUMENTAL DIAGNOSTICS

#### CATCHMENT AREA

The catchment area of C.A.F. it is predominantly of citizens of the Modena and Castelfranco Emilia districts as well as the surrounding areas.

C.A.F. however it is open to anyone who wants to use its services.

#### Organization and articulation of services

THE REQUIREMENTS OF THE REQUESTED SERVICE ARE RE-EXAMINED BEFORE PROVIDING THE CUSTOMER SERVICE (FOR EXAMPLE: BEFORE THE APPOINTMENT OF THE QUOTE), ENSURING THAT:

A) the service requirements are defined,

B) any discrepancies between the contractual requirements with respect to those expressed previously have been resolved;

C) the capacity exists to meet the established requirements.

THE SERVICE IS OFFERED TO THE USER THROUGH THE DIRECT CONTACT WITH THE COMPANY OR THE ISSUE OF DOCUMENTATION IN FRONT OF PARTICIPATION IN GARE. THE SERVICE CAN BE STANDARD OR DESIGNED TO MEASURE FOR THE CUSTOMER.

THE RECORDINGS OF THE RESULTS OF THE REVIEWS AND OF THE CONSEQUENTIAL ACTIONS ARE PRESERVED BY THE RAQ.

WHEN THE REQUIREMENTS OF AN ORDER / CONTRACT ARE CHANGED, CAF S.R.L. ENSURES THAT THE RELATED DOCUMENTS ARE CORRECTED AND THAT THE INVOLVED PERSONNEL IS MADE OF KNOWLEDGE OF THE AMENDMENTS AS SHOWN IN SECTION 3 "REVIEW OF THE CONTRACT"

The operating procedures and responsibilities related to the management of customer requests and the review of the contract are defined in SECTION 3 "review of the contract"

THE RECORDINGS OF THE CONTRACTS 'REVIEWS ARE KEPT ACCORDING TO THE FOLLOWING SECTION 3 "REVIEW OF THE CONTRACT".

#### QUALITY STANDARDS COMMITMENTS AND PROGRAMS

The management of the center carries out periodic surveys on the degree of customer satisfaction.

The same assumes its commitment to guarantee users; indicators are the means to objectify commitment and standards define the expected level of quality of performance. Commitments, indicators and standards must be understandable, appropriate and measurable.

#### Commitments are:

- the minimum forms: generally consisting of the "therapeutic card program" and "the taking charge" for the physiotherapy activity, and the reports issued by the doctors in the event of a visit or clinical examination. Both are formulated on specific forms headed to the center with legible signature and clear and understandable language; they are always traceable and reproducible. The photographic images and the traces of the specialized exams, in single copy, are always released to the patients.
- Access: referable to a behavioral protocol related to the customer's first contact with the CAF Clinic:
- Reservation programs: clear dates, times and list of therapy to be performed and available through the secretariat.
- The improvement of information to users: in giving information, operators take into account the characteristics of the interlocutor, his general and specific culture, his age and psychological aspects. The language used to give the information must be clear and understandable by the ordinary person, simple and non-technical.

The information must be precise and detailed, if language barriers arise, the appropriate paths are activated

#### OBJECTIVES ABOUT:

##### The right to information and facilitation of access to healthcare facilities

- to guarantee at the moment of access a personalized welcome with an interview and the delivery of informative paper material;
- guarantee the annual update of reception protocols;
- guarantee the continuity of information; guarantee critical appraisal of complaints;
- guarantee the exchange of information between operators;
- inform the attending physician of any need for continuity of care

##### Personalization and humanization

- guarantee the confidentiality of information;
- guarantee the written procedures related to the signed consent;
- guarantee the modalities and correctness of the reception;
- guarantee respect for the smooth sliding in bookings
- guarantee complete and clear forms;
- guarantee the evaluation of customer satisfaction;
- guaranteeing compliance with the deadlines for the delivery of medical reports and documentation in general.

##### The comfort and safety of the health facility

- guarantee a space for waiting, furnished and comfortable even for accompanying persons;
- to guarantee clean premises with an adequate microclimate;
- guarantee sanitary facilities suitable also for disabled people.

##### Prevention

- guarantee the health of personnel by carrying out risk assessments pursuant to Legislative Decree 81;
- guarantee the preparation of the program of improvement measures to be implemented;
- guarantee the observation of the infection prevention and control plan.
- Ensure risk management for clinical risk, that is damage caused to the patient during health care

#### MECHANISMS OF PROTECTION

POLIAMBULATORIO CERTIFICATO PER IL SISTEMA DI GESTIONE PER LA QUALITÀ  
UNI EN ISO 9001:2015  
Certificato n°5657/01/S

The health structure protects customer with the evaluation of complaints and with the periodic comparison of the results obtained in previous years. Complaints can be verbal or written; for the latter there is a written reply within seven days of receipt, by the Health Department (SAN) if the complaint is of medical origin or by the General Directorate (DIR) if it has an organizational or administrative origin.

## APPENDIX User rights

### The user:

- has the right to be treated with timeliness, attention and respect even of their philosophical and religious convictions;
- has the right to keep his name;
- has the right to be assisted by health personnel of his liking and whose general information can be known;
- has the right to the protection of their privacy and privacy during medical practices.

In particular, user rights can be summarized as follows:

### Right to information and consent

The user has the right to receive confidential, respectful, comprehensible and timely information on diagnostic and therapeutic measures, on the risks connected to them, on the secondary effects and contraindications and on the possibility of alternative treatments even if they can be carried out at different health facilities, and on delays or changes in the planned clinical program.

The user is made aware in detail of the cost of treatments and services offered and payment methods. You have the right to receive all information in order to express an informed consent.

The client can interrupt the therapies in progress by manifesting their will.

### Right to privacy

The right to confidentiality is observed in collecting, with the utmost discretion, the information on the person indispensable to obtain clinical information necessary for therapy, visit or instrumental examination.

The right to privacy entails, on the part of all operators, the duty of professional secrecy or ex officio. Information on the state of health and the progress of the treatments will be given only to the patient; to his family or to other persons, only with the prior consent of the interested party.

### Children's rights

The minor under age, during treatment and benefits, has the right to have one of the parents or a delegated person of the family nearby.

### Duties of the client

POLIAMBULATORIO CERTIFICATO PER IL SISTEMA DI GESTIONE PER LA QUALITÀ  
UNI EN ISO 9001:2015  
Certificato n°5657/01/S

The client:

- has the duty when he accesses a healthcare facility to maintain responsible behavior, respectful of the rights of other patients and of the medical staff in charge;
- has the duty to respect the environments, equipment, and furnishings available to him/her;
- has the duty to observe the agreed timetables and shifts;
- has the duty to respect any waiting at the reception both at the time of booking and at the exit of the services. This time is made necessary by the provisions regarding registration of the access and the service provided established by the current regional legislation;
- has the duty, if it intends to renounce scheduled services, to warn in time so as not to create interruption of services and waste of resources;
- has the duty to request health services in the time and manner envisaged;
- has a duty not to smoke in the environment of health services;
- has the duty to take the information in the manner envisaged and to comply with the indications relating to security in any way expressed;
- has the duty to pay the service when expected.

AMBULATIONAL PERFORMANCE:

- SPECIALIST DIAGNOSTICS AND INSTRUMENTAL DIAGNOSTICS.

CAF has an acceptance service for the booking and payment of the services to be carried out before the visit to complete the normal administrative procedures.

The booking is made under request of the General Practitioner of the Free choice pediatrics.

- BOOKING OF VISITS AND EXAMS:

It can be done by phone or in person.

In person, in the following hours:

- From Monday to Friday from 8.00 to 20.00

By phone at N ° 059/218602 active from Monday to Friday from 8.00 to 20.00.

The booking of services through SSN is made through the CUPweb reservation system managed by the AUSL.

Reservations for private services are managed through the CAF management system.

- TICKET

it is a form of participation in health care payable by the citizen for outpatient specialist assistance and instrumental and laboratory diagnostics. The criteria for participation are established by national and regional legislation.

Current regional directives require all citizens aged between 6 and 65 to pay the fee for participation in the health expenditure, except for cases of right of exemption by status (pathology or physical condition) or by income.

- TICKET PAYMENT:

In all cases where the user is expected to participate in health spending, he must pay the ticket on the day scheduled for the service at the CAF cash desk before using the service.

In cash or by debit or check.

The user has the right to pay the ticket personally or through a third party.

- HONORARY PAYMENT FOR PRIVATE PERFORMANCE:

Where a private benefit has been made, the balance of the benefit must be paid at the CAF cash desk after the service has been completed

POLIAMBULATORIO CERTIFICATO PER IL SISTEMA DI GESTIONE PER LA QUALITÀ  
UNI EN ISO 9001:2015  
Certificato n°5657/01/S

• DELAY:

If the patient shows up in delay regards to the scheduled time, compatibly with the current activities, it will be visited in the queue compatibly with service activities.

• REFERENCE RETREAT:

The report is for immediate delivery except for ecg for non-competitive activities (within 3 working days). To protect the privacy of users, the reports related to health checks must be withdrawn by the interested party, and in case of impossibility, from delegated person with written proxy and own identity document.

### THERAPEUTIC PERFORMANCE, REHABILITATION

It is possible to make prior reservation at the service of acceptance rehabilitation and physical therapy from Monday to Friday from 8 to 20.

The services are performed by qualified therapists and massage therapists who annually attend refresher courses to improve the quality of their services.

The service standards have been defined by protocols drawn up and shared by the health director and the department operators.

The department is located on the ground floor and also allows access for the disabled by accessing directly to the rehabilitation gym.

The services are provided from Monday to Friday from 8.00 to 20.00.
